

Pay.gov Disaster Recovery Exercise - June 1, 2019

Published on District of Utah (<https://www.utb.uscourts.gov>)

On Saturday, June 1, 2019, beginning at 4:00 pm (MT) and lasting until around 8:00 pm (MT), Pay.gov will conduct a Disaster Recovery Exercise (DRE) and transfer production system operations from the contingency data center in East Rutherford, New Jersey (EROC) back to the primary data center in Dallas, Texas (DOC).

For ECF filers looking to make a payment via Pay.gov, you will experience a total interruption of services during the transfer of production system operations between data centers. If the system will be down longer than 4 hours, a notice will be added on the ECF system with further information about the DRE.
