

Public Access to Court Electronic Records (PACER)

Published on District of Utah (<https://www.utb.uscourts.gov>)

Public access to District of Utah Bankruptcy case information is provided through a service of the United States Judiciary called PACER. PACER is an acronym for Public Access to Court Electronic Records, and it permits account holders to view documents that have been filed within the Court's Electronic Case Filing (ECF) System. It also permits the public to query this database for a particular individual, case name, and other case information.

Anyone who has a computer and internet access may use the PACER service. To obtain a PACER account and password, register online at the [PACER Service Center](#) [1]. However, to file case documents electronically, attorneys must register for a CM/ECF Filer account and [login](#) [2] to the [Utah Bankruptcy Court's ECF system](#) [3].

PACER provides access to the case summary, docket entries, and copies of documents filed in federal cases. If a case cannot be located when searching by case number and/or party name, then please contact the Clerk's office at **801-524-6687**.

The [PACER Service Center](#) [4] can also be contacted via [email](#) [5] or by phone call to **800-676-6856**, during 8 AM to 6 PM CT Monday through Friday.
